Fruit & Nut Trees application form *In accordance with Members Rules*

The permission of the Committee must be obtained prior to the planting of Fruit trees. Any such trees must be of Extreme Dwarf, Dwarfing and Semi Dwarfing types only. And must be maintained **Below 2.4m (8ft) high** and not overhang paths or other plots. permission must be first obtained from the Committee in writing before any planting is started. large trees are NOT permitted.

Show the position of surrounding plot, paths and boundaries & Distance in feet from the site of your proposed Trees and the boundaries of your plot so the position within the plot is clear. It is expected that at least 48" gap is left between any trees and any paths other than Step-over, Espalier or Cordon types for these at least 24" is expected.
